Bull and Bear Fight.

People in McKean County are excited over a most disgraceful exhibition gotten up by a man named Marsh. He built a pit eleven feet deep and thirty eight feet long by twenty-six wide, drove a bear and a bull into it and goaded the animals on until the bear was nearly gored to death. Several hundred people witnessed the brutal spec-

tickets was in no hurry to proceed, but finally, after a good deal of noise, the door into the pit was thrown open, Taurus sent into the pit with a rush at Cohoes.—N. Y. World, July 13. perance issues. A resolution was adopted, after much debate, deeming it inexpedient to nominate a State ticket. A resolution was adopted favoring a Constitutional amendment prohibiting the manufacture or importation or related to the pit was through the pit was thro sides were others with long, sharp poles to goad the brutes to action, should they be backward in their moveshould they be backward in their move-ments. The bear, a shaggy-coated brown animal, weighing 300 pounds, stood looking toward the top of the pit wistfully for liberty. The bull was trim-limbed, with stout, sharp horns, and weighed 1,700 pounds. In his nose

was a ring and around the horns was tied a band of bright red ribbon. As name, stopped suddenly in the center of the pit and gazed fiercely at "Cuff," the name given by its master to bruin. Cuff, after an interval of a few mo-ments, turned his head slowly around

The bear was too much ister of Commerce and Trade; Von Puttkam-mer, President of the Province of Silesia, Min-goring received from the bull. Once ruin almost made his escape through the bull's entrance door by taking a rope which fastened it in its mouth and ing the door partially open. On the last round the bear fell in the corner and was unable to rise. His sides heaved, he breathed painfully and blood streamed from his mouth. Cheers were given for the bull by some. Some more brutal ones wanted the fight to go 12th, passed off with only a few cases of on and for a few moments it looked fa vorable for a general row as a finale to the disgraceful proceedings. The bull was removed, but the bear lay for fifteen minutes and was finally dragged

out of the pit into his cage. The poor

dumb animal will in all probability die

from his injuries. The crowd, satisfied with the spectacle, returned to the depot. The time of the combat was one hour and ten minutes.—Philaselphia

The Newburg Mastodon. A dispatch from Newburg, N. Y., says: There is a great sensation in the neighborhood over the discovery of the petrified bones of the mastodon in the morass on the farm of Mr. Hugh Kelley. Scores of people have visited the premises of Mr. James W. Morrison, where the skeleton now is. Professional men from the adjoining places flock hither in large numbers, and all pronounce the bones perfect in form and in a splendid state of preservation. The excavating continued yesterday and also to-day. An additional number of men was put on the work of digging, and it was pushed with great vigor until three more water-spouts were reached and drowned the men out, so that they have been compelled to lay aside their tools for the present.

There have been a large number of dditional pieces recovered, among them the three ribs, that part of the foreleg bone which was missing yester day, another piece of the shoulder day, another piece of the shoulder-blade taken out Sunday, a few of the tail-bones, a number of the foot and ankle bones and various other small pieces belonging to different parts of the beast. The skull is now placed on a rack in the barn of Mr. Morrison, while the legs, ribs and other bones are unearthed. One tooth was over eighput together in their proper places, as teen inches in circumference and the near as can be discerned, and the whole enamel quite perfect. During the is kept from view by a sheeting same week similar remains of some stretched crosswise in the barn in front gigantic animal were discovered at dred people witnessed the brutal spectacle. A Fearful Ride.

Woodward's Garden's were thronged esterday afternoon by a concourse of cleasure-seekers, drawn thither by the desire to see as many and varied enter-tainments as possible for one admission fee. The place is a very popular resort for San Franciscans, especially on such a gala-day as the Fourth of July, which fact was never more fully demonstrated than yesterday. Aside from the mat-inee performance in the pavilion, the grand attraction was the ascension of Prof. S. W. Colgrove and Miss Emma Allison, correspondent of the New York Graphic. After an ascent and flight of several hours' duration the gas in the Graphic. After an ascent and flight of several hours' duration the gas in the balloon became scant and it began to descend. The result is thus described: coming gaseous, abstracts from the Seeing the danger of falling into the water so much heat that it specified. balloon became scant and it began to descend. The result is thus described:
Seeing the danger of falling into the water, the aeronaut then cut off pieces of his landing-rope and threw them over. Miss Allison now began to grow frightened, and the situation became dangerous. As the shadow of the balloon on the bay became longer, and as the could hear the water plainly, and knew that he was falling to it swiftly, Colgrove flung out everything, even his anchor and ropes, in the hope of rising again. It was of no avail.

The "second round" was begun when the men with poles drove the bull into the bear's corner. The bull made a desperate pass at bruin with his horns. Duke sent the bear four feet in the air. When he fell with a thud at the bottom of the pit, the bull made a daring charge. Bruin retaliated, by sending his long claws mercilessly into the bull's neck and tore a three-inch slit in one of his ears. Beads of blood stood out on the bull's neck and gore dripped from his wounded ear. Taurus withdrawing slightly, the bear bounded to his feet, rushed to the north-east corner of the pit and attempted to clamber out, but pit and attempted to clamber out, but three minutes. Colgrove saw the was beaten back. Making a desperate danger ahead, and with a word of was beaten back. Making a desperate rush, the bear fastened his long claws into the flesh of a worder of the bear in fright. The animal bounded towards the top seat and sent his sharp claws into the flesh of a worder than that was unable to get out of his way quickly enough. Boards broke and let many people down to the ground. The excitement was intense. The panic lasted for ten minutes. The bear was trying desperately to get away from the bear. Finally Marsh had received a scalp wound, her lip.

poor bear through the air back over his It was fortunate that the disaster was head into the centre of the arena. The not any more serious than it is .- San

> A Son of the Late General Pillow has a Narrow Escape from Death in Arkansas. Mr. Robert G. Pillow (son of the late General Pillow), who is now running a plantation over in Arkansas, and who the Fourth of July, had a narrow escape from death not long since. Accompanied by Aleck, one of the colored men of the place, he was out hunting a wild hog that had been in the vicinity. Mr. Pillow had a gun, and Aleck had armed himself with a pint bottle filled with whisky. The hog was found and shot, and just as Mr. Pillow went up to the writhing animal, an immense cotton-mouth snake, whose bite is as fatal as that of a rattlesnake, fastened its fangs on the calf of his leg.
> As his Memphis friends know, Bob is

not easily frightened. He took in the ituation in a moment, and instead of exhibiting alarm he turned to his companion and quietly remarked: " Aleck, think I'll try a little of that whisky now," whisky being considered an in-fallible remedy. He poured every drop down his throat without stopping to venture any remarks as to quality.

Then, shouldering his gun, he rapidly walked to the house, a half mile distant, where he drank the contents of three ordinary glass tumblers filled

with whisky. "Of course it stupefied you?" chimed in a Memphis friend to whom he was relating the facts. "Of course it didn't," was the reply. "I don't know how it happened, but so far as intoxicating effects were concerned the stuff cating effects were concerned, the stuff had no more influence than water. But it induced a regular Niagara Falls of perspiration, which rapidly expelled the poison and the wound healed and gave me no trouble. A day or two afterward, however, I was the sickest boy in Eastern Arkansas. I had swallowed enough to kill half a dozen unsnakebitten fellows."

Bob's appearance justified the comment that he had experienced no permanent injury from the bite of that terror of Southern plantations, the dreaded cotton-mouthed snake.—Memphis Ava-

Bashee, we saw on our left front, ris-ing above the surrounding country, the steep, isolated and almost inaccessible hill, or rather crag, of Isandula, the contour of its rugged crest strangely resembling a side view of a couchant lion. On the lower neck of the high ground on its right were clearly visible up against the sky line the abandoned wagons of the destroyed column. No Zulus were seen. Already tokens of the combat and bootless flight were apparent. The lines of retreat towards Fugitive's Drift, along which, through a clink in the Zulu environment our a clink in the Zulu environment our unfortunate comrades who thus far survived tried to escape, lay athwart a rocky slope to our right front, with a precipitous ravine at its base. In this ravine dead men lay thick—mere bones, with toughened, discolored skin, like leather, covering them and clinging tight to them, the flesh all wasted away.

assegai stabs, hanging in their harness down the steep face of the ravine. A ittle further on was a broken and batan opinion. He had heard a great deal about the value of Mr. Sherman's opin- of mules mouldering in their harness, jons, and how a great many people and around lay the corpses of soldiers, went to him to get an opinion, and John, who had never had, nor was an intercepted vehicle and done to death without a chance for life.

Still following the trail of bodie

with a gun-limber jammed on its edge,

through long, rank grass and among stores I approached the crest. Here he slaughtered ones lay very thick, so that the string became a broad belt. Many hereabouts wore the uniform of the Natal police. On the bare ground, on the crest itself, among the wagons the dead were less thick, but on the slope beyond, on which from the crest we looked down, the scene was the saddest and more full of weird desolation than any I had yet gazed upon. There was none of the stark, blood-curdling horror of a recent battle-field; no poo "But, John—about what?" of yet wet blood; no raw, gaping "O! anything, sir; take you pick and wounds; no torn red flesh that seems yet quivering. Nothing of all that Mr. Sherman, seeing the notions of makes the scene of yesterday's battle his client on the matter in hand, took pen, and writing a few words, folded them up and handed them to John, in this solitude of nature. Grain had grown luxuriantly round the wagons, sprouting from the seed that dropped from the loads, falling in soil fertilized

by the life-blood of gallant men. So long in most places had grown the grass among animals, it might be stated that that it mercifully shrouded the dead a Milwaukee dog plays base-ball. whom four long months to-morrow we have left unburied. As one strayed aimlessly about one a man who invariably takes his soda stumbled in the grass over skeletons from the other side of the fountain.—

that rattled to the touch. Here lay a Quincy Modern Argo. corpse with a bayonet jammed into the mouth up to the socket, transfixing the head and mouth a foot into the ground. John was appealed to to settle the There lay a form that seemed cosily uestion, but he could not decide. At curled in calm sleep, turned almost on its face, but seven assezai stabs have writing and I can't make head or tail ticed one dead man under a wagon, out of it!" with his head on a saddle for a pillow, plainest print; but Polly, who was something of a scholar, opened the paper and read as follows: "Never put of till to more than a patch of the camp, lay Durnford's body, table. a patch of long grass, near the right flank of the camp, lay Durnford's body, the long mustache still clinging to the withered skin of the face. Captain the long mustache still clinging to the withered skin of the face. Captain Shepstone recognized him at once, and identified him yet further by rings on the finger and a knife with the page of struck. the finger and a knife with the name of struck it in the pocket, which relics were brought away. Durnford had died hard —a central figure of a knot of brave men who had fought it out around their chief to the bitter end. A stal-

wart Zulu covered by his shield lay at the Colonel's feet. Around him almost ber carved upon it is oftentimes more in a ring lay about a dozen dead men half being Natal Carabineers, riddled thousand lines of obituary poetry. by assegai stabs. These gallant fel-lows were easily identified by their

the Twenty-fourth Regiment. These were left untouched by special orders from General Newdegate. General Marshall had nourished a natural and seemly wish to give interment to all seemly wish to give interment to all story.—Wheeling Leader. that of the well-known ice cave at Decorah. The two are less than fifty miles apart. The same cause undoubtedly determines the condition of both these singular ice formations.—Cor. N. Y. Observer.

Artificial Ice in Florida.

During the present season the experiment of making artificial ice has been frightened at all at his fearful experience. His forehead and the back of his head were cut and his body severely bruised. None of his bones the arctic machine, the one used there, about fifty pounds of liquid ammonia fitty was essentially appears that the stone pavents at the stone pavents and fifty was an antural and seemly wish to give interment to all on dead who so long have lain bleechted and uncourable and uncourable and uncourable and uncourable and uncourable and uncourable and that the ceremony should be represented and that the ceremony should be postponed till the end of the campaign. In vain Marshall offered to convey a sourial party of the regiment with tools from Rorke's Drift in wagons. One has some sympathy with the claim of lifty years, that has not felt the truth of he has escaped any serious internal in-jury.—N. Y. Herald.

has some sympathy with the claim of the regiment to bury its own dead, but why postpone the interment till only a few loose bones can be gathered? As merous, will come back to-morrow to

> to bury our dead but to remove a batch of wagons.
>
> Wandering about the desolate camp. Harness, left Landsman's Drift yesterday on the march to the bivouac at Rorke's Drift. As the detachment approached the latter place it crowned a ridge, and in full view was the old fort, the scene of the memorable defense of January 22. Many make pilgrimage to the spot now historical and wonder, with admiration glowing in their hearts, how a handful of soldiers, however stout-hearted could have held a Colonel Harness was busily engaged.
>
> Wandering about the desolate camp. A wife was all the sour odor of stale death, was sickening. I chanced on many sad relics—letters from home, photographs, journals, blood-stained books, packs of journals, blood-stained books, packs of cards. Lord Chelmsford's copying-book, containing an impression of his correspondence with the Horse Guards was found in one of his portmanteaus and identified in a kraal two miles off.
>
> Colonel Harness, was busily engaged.

I shall offer a few comments on the Isandula position. Had the world been searched for a position offering the easiest facilities for being surprised none could have been well found to surprass it. The position seams to offer surpass it. The position seems to offer a premium on disaster and asks to be attacked. In the rear laagered wagons would have discounted its defects; but the camp was more defenseless than an English village. Systematic scouting could alone have justified such a posi tion, and this too clearly cannot have peen carried out. THERE was a time when the magician who could pour any and every kind of liquor ordered from the same bottle was looked upon as a magician, indeed.
